| | 17423-28 | Jan. 22 | | Faulkner | GPC-D-S | Niglintgak gas field; unloading dock in Kumak channel of Mackenzie; Farewell staging area to be used; Kumak channel separates most southerly well from rest; little known of Kumak channel crossing site |
| | 17440 | | | Faulkner | | Niglintgak gas field, Farewell staging area airstrip will be used, no other will be built |
| 115 | 17451 | Jan. 23 | | Faulkner | | Bering Strait, barging materials via Strait versus Mackenzie to Niglintgak gas field |
| | 17459 | | | Faulkner | | Kumak channel of mackenzie, possible flooding of Niglintgak gas field, precautions |
| | 17468-71 | | | Faulkner | | Kumak channel, crossing difficulties of gathering line to gas plant |
| | 17477-78 | | | Bayly Faulkner | COPE/ITC GPC-D-S | Richards Island, possible extension of Shell exploration; Swan Hills as example of field with widely spaced wells and feeder lines |
| | 17487-92 | | | Faulkner | | Swan Hills gas field, Niglintgak field will be better planned; no fill deposits near Niglintgak like Big Horn Point; personnel brought from Farewell camp to Niglintgak via helicopter |
| | 17518-22 | | | Faulkner | | Kumak Channel near Niglintgak gas field, problems crossing with gathering line |
| | 17538 | | | Stamberg | GPC-D-G | Swimming Point base camp; Hans Bay, dock to be built, Parsons Lake gas field |
| | 17544 | | | Stamberg | | Hans Bay as possible water source for Parsons Lake gas field |
| | 17581-84 | | | Stamberg | | Alternative staging areas for Parsons Lake gas field at Swimming Point, Lucas Point, Hans Bay; Prudhoe Bay, modular construction system, moving modules over special road |
| 116 | 17607-13 | Jan. 24 | | Stamberg | | Liverpool Bay, Point Barrow, transportation of modules to Parsons Lake, possibility of dredging or scaling; Tuktoyaktuk Harbour, dredging responsibility; environmental effects of dredging Liverpool Bay; Swimming Point, alternate site to Parsons Lake |
| | 17619-24 | | | Stamberg Bayly Berger | | Caribou Hills gravel sources, drilling permit leases; impact on whale populations in Liverpool Bay and Shallow Bay |
| | 17646 | | | Rempel | GPC-D-I | Ellice-Langley, Richards Island, environmental studies by F.F. Slaney and Company, consultant |
| | 17654 | | | Rempel | | Richards Island potential for over-fishing; possibility of archaeologist sites at Taglu and Niglintgak |
| | 17656 | | | Rempel | GPC-D-I | Bar C, Camp Farewell, Swimming Point, Tuktoyaktuk refuel cash points |
| | 17661-72 | | | Webb | GPC-D | Whitefish Station, Kendall Island, Kugmallit Bay, Shallow Bay, Garry Island, Mackenzie Bay, Tent Island, Reindeer Channel, Immerk, Liverpool Bay, Pelly Island, re whales |
| | 17679 | | | Wopnford | GPC-D-S | Kendall Island Bird Sanctuary |
| | 17701 | | | Appleton | GPC-D-G | Fuel transportation, Tuk Peninsula, Liverpool Bay, Husky Lakes |
| | 17706-07 | | | Appleton | | Studies of whales and fish in Liverpool Bay area, dredging |

| | 5809-10 | | | E. Powell | Citizen | Delay; study of impact on northerners; cities and municipalities, Alberta |
| | 5821-33 | | | M. Venne | Citizen | Suggestions, Native Outreach Program |
| | 5848-53 | | | B. Hall-Boyer | Citizen | Need for full-scale research, alternative energy sources; moratorium on development |
| | 5855 | | | O.A. Wiskell | Citizen | Moratorium on development |
| | 5875 | | | L. Mulhall | Citizen | Moratorium; regulation of domestic consumption, exports; environmental safeguards; native decision making |
| | 5933 | | | B. Jahrig | Citizen | Canadian energy policy; settlement of land claims |
| | 5941-42 | | | B. Farrell | Citizen | Settlement of land claims; energy conservation program; study of alternative development possibilities |
| | 5948-49 | | | T. Turner | Citizen | Moratorium; exploitation in responsible manner, in response to genuine need |
| | 5955 | | | K. Vandergrift | Citizen | 10 year moratorium, justice and stewardship |
| | 5991-92 | | | D. Leadbeater | Citizen | Settlement of land claims; further technical, environmental studies |
| | 5998-99 | | | L. Bujold | Citizen | Full public accountability, Canadian politicians; publication of exact figures, energy reserves; conservation of depletable resources |
| | 6005 | | | M. Rigney | Citizen | Creation of Citizen' Board; moratorium on construction |
| C-56 | 6049 | May 19 | REG | D. Logan | Citizen | Development decisions made by northerners; justice, stewardship, use of resources |
| -- | 6088-89 | | | C. Stewart | Citizen | Negotiations, self-determination for native people |
| C-57 | 6152 | May 20 | WINN | B. Valentine | Citizen | Synod of Diocese of Ruperts Land supports moratorium on development |
| | 6160-61 | | | W. Norrie | Citizen | Support for pipeline from Winnipeg City Council |
| | 6162-65 | | | K. Johnson | Citizen | Land use plan for development and preservation; opposed to oil pipeline following gas pipeline; strict environmental standards, if pipeline |
| | 6169 | | | N. Cogan | Citizen | Gas pipeline construction supported |
| | 6176 | | | S. Kuehn | Citizen | Land claims settled; public control of pipeline; development of alternate energy sources; energy needs assessed; protection of environment |
| | 6187-93 | | | A. Lansdown | Citizen | Deferral of pipeline until gas is needed, recommended by Manitoba Environmental Council; land claims settled; land use plan; environmental code; effective monitoring |
| | 6202 | | | J. Mackenzie | Citizen | No industrial development until land claims are settled |
| | 6212-17 | | | J. Ryan | Citizen | Postponement of pipeline construction, reasons |
| | 6222 | | | J. Ryan | | Ten - year moratorium |
| | 6227 | | | P. Young | | Support for pipeline |
| | 6241-42 | | | M. Haave | Citizen | Land claims settled; environment, economic and social studies; energy conservation research; moratorium; review of Indian Act |
| | 6247 | | | A. Rathke | Citizen | Supports CAGPL's application because it is economically and environmentally more feasible |
| | 6251 | | | H. Spence | Citizen | Government must recognize native rights; no development until consultation with natives involved; does not want pipeline |
| | 6269-71 | | | B. Teixeira | Citizen | Land settlement prior to development; establishment of permanent body to investigate projects and report to Executive Council, to ensure public participation |
| C-58 | 6333 | May 25 | TO | B. Massman | Citizen | Moratorium to provide time for land claims settlement |

| 128 | 19483-88 | Feb.18 | IN | Trudeau | COPE | Enforcement staff, standards, number on staff, training |
| | 19491-94 | | | Trudeau | | Enforcement officer, effective control of erosion, stream blockage, fish damage, fuel spills and waste disposal |
| | 19505-21 | | | Trudeau | | Depth requirement for underwater blasting; regulations, specific problems; permit conditions not met; "Pollution Regulation", spills; regulation of fishing |
| 129 | 19681-82 | Feb.19 | | Speller Evans | MVPI CARC | Enforcement recommendations for R.C.M.P., Canadian Wildlife Service, Territorial Game Branch, Fisheries and Marine Service, fishing and hunting regulations |
| 131 | 19882 | Mar.17 | YK | Purcell | CAGPL | Pipeline Construction Code no longer requires block valves |
| 132 | 20040-41 | Mar.18 | | Purcell | | Block valves no longer required |
| 133 | 20166-68 | Mar.23 | | Jakimchuk | CAGPL | Overflight regulations by MOT, Cross-Delta route |
| 134 | 20216 | Mar.24 | | Jakimchuk | | Game management rules should be enforced |
| 135 | 20540-42 | Mar.25 | | Hemstock | CAGPL | Regulation of air traffic in Delta |
| | 20583 | | | Sprague | MVPI | Regulations for protecting natural waters; implementation problems |
| | 20591-600 | | | Sprague | | Regulations, standards for siltation, petroleum contamination, sewage, temperature increase, methanol in water |
| 136 | 20640-44 | | | Sprague | | Regulation of construction, industry to reduce impact of effluents on fish; development of standards, regulations |
| | 20655 | | | Sprague | | Use of biological standard for siltation in streams |
| | 20660-64 | | | Sprague | | Regulating water quality; Ontario construction project; location of effluent discharge; special regulations needed for pipeline |
| | 20670-75 | | | Sprague | | Benthic diversity index change as silt measure; oil concentrations, dissolved oxygen in water; setting up water quality regulations. |
| | 20678 | | | Sprague | | Setting water quality standards, regulations before construction; sediment and turbidity tests |
| | 20692-96 | Mar. 26 | | Peet | MVPI | Responsibilities of Fisheries division; recommendations for dealing with aspects of pipeline construction affecting fisheries |
| | 20705-18 | | | Peet | MVPI | Commercial fishing regulations |
| | 20719 | | | Peet | | Regulation of sports fishing |
| | 20725-30 | | | Peet | | Regulation of sports fishing for construction workers; conflicts of sports, commercial with domestic fishing |
| | 20732-37 | | | Peet | | Regulation of fisheries |
| | 20743-50 | | | Peet | | Regulation of fisheries |
| | 20757-58 | | | Peet | | Regulation of sports fishing |
| | 20764-65 | | | Peet | | Size of fisheries enforcement force required |
| 138 | 20954 | Apr. 6 | | Norton | MVPI | Habitat Protection Section of Alaska Department of Fish and Games |
| 139 | 21113-29 | Apr. 7 | | Simmons Norton | MVPI | Establishment of a Mackenzie Valley Authority for surveillance, monitoring of pipeline construction |
| | 21180-202 | | | Heacock | MVPI | Flight restrictions re: National Parks, flight altitude frequency for aircraft, helicopters, 2,000 fast-flight regulation |
| 140 | 21323-27 | Apr. 8 | | Usher | COPE/ITC | Absence of an effective regulatory body to monitor oil exploration development |
| 141 | 21477-78 | Apr. 9 | | Usher | | Failure of petroleum company to obey Territorial Land Use Regulations on Banks Island |
| C-50 | 4936-50 | May 11 | VAN | Moyes | Citizen | West Coast Environmental Law Association, could act as public watchdog during construction phase |

REGULATORY AGENCIES AND CODES (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|--------------------|---------------------|--|
| C-53 | 5567-69 | May 14 | CAL | Blair | Foothills | Regulatory, judicial and Parliamentary review is not likely to delay time of first flow of gas from north |
| C-59 | 6483 | May 26 | TOR | D. Mackay | Citizen | Need for independent, competent inspectorate |
| C-60 | 6636 | May 27 | | R. Snyder | Citizen | Canadian Standards Association, construction standards |
| | 6786-87 | | | H. Mitchell | Citizen | Need for agency to oversee construction, throughput, tariffs |
| C-65 | 7546 | June 4 | OTT | S. Loewan | Citizen | Need for authorities to ensure protection of environment, social concerns if pipeline built |
| 159 | 24522 | July 7 | YK | Trusty | CAGPL | Contractors, obliged to obey any stipulations laid down |
| 162 | 25067-68 | July 13 | | Trusty | | Territorial regulations, potential use of community hospital facilities; stipulations re necessary standards, camps |
| 165 | 25633-34 | July 19 | | Reesor MacLeod | NWT/AM Foothills | Territorial regulations on amount of gravel taken from borrow pits |
| 175 | 27271-72 | Aug. 23 | | Hinchey | NWT/AM | Recommended establishment of a Mackenzie Valley Pipeline authority, organization, headquarters; Mackenzie Valley Business Association, responsibilities |
| | 27330-33 | | | Hinchey Berger | | Mackenzie Valley pipeline authority, policy and policing function; single or multiple agency enforcement; structure of agency, location, governed from within NWT |
| 182 | 28254 | Sept 9 | | Forth | MHA/NWT | Recommended that Government establish agency to ensure agreement is honoured |
| -- | 28289-90 | | | McCombs | MHA/NWT | Recommended that clear line of authority for all pipeline construction be established |
| | 28254 | | | Forth | MHA/NWT | Recommended that Government establish agency to ensure agreement is honoured |
| | 28289-90 | | | McCombs | MHA/NWT | Recommended that clear lines of authority for all pipeline construction be established |
| 186 | 28865-68 | Sept.16 | | Basham | MVPI | Authority of Agency - manpower delivery system |
| 188 | 29138-39 | Sept.21 | | Searle | MVPI | Creation of a Mackenzie Valley Pipeline Authority |
| 191 | 29835-37 | Sept.24 | | Hagglund | MVPI | Resupply to communities, legislation to ensure priority; community involvement on regulatory agency |
| 193 | 30110-14 | Oct. 5 | | Doyle | EPB | Agency duties must include preparation of regulatory documentation in advance of company submissions, conduct preliminary and final design reviews, put a team of trained inspectors in the field; manpower requirements |
| | 30126-59 | | | Doyle | | Definition of time periods, reviews for schedule analysis; construction segment design; six-phased approach to setting up an agency, manpower requirements and qualifications; terms of reference of Agency |
| | 30226-34 | | | Doyle | | Agency definition, difficulties in delineation of terms of reference |
| | 30235-40 | | | Doyle Templeton | EPB | Measures to regulate pipeline personnel performance bonds, penalties; Agency decision-making - scheduling |
| | 30248-55 | | | Doyle | | Relationship between Agency and terms and conditions submitted by Inquiry; NEB not included in Agency study |
| 194 | 30297-26 | Oct. 6 | | Doyle | EPB | Time requirements for Agency formation, design reviews, definition of regulations; qualifications of Agency staff; inspection staff; review period - wharves, stockpile sites |
| | 30330-31 | | | Doyle | | Regulation of social matters by Agency - not defined |
| | 30389-90 | | | Hemstock | CAGPL | Monitoring should be conducted by confining department of government |
| 196 | 30774-79 | Oct. 12 | | Skinnarland | CARC | Implementation of Alaska Pipeline stipulations by U.S. Federal Government; formation of single authority; working relationship between Alaska Pipeline and third party contractor |

(continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|----------------------------------|---------------------|---|
| 196 | 30781-89 | Oct.12 | YK | Skinnarland | CARC | Procedures for implementation of stipulations, Mackenzie Valley pipeline; use of existing agencies; DIAND, NEB, DOE, DOT, DPW; suggests that NEB be assigned responsibility |
| | 30790-807 | | | Skinnarland | | Concept of single authority with mandate based on NEB Gas Pipeline Regulations: established, staffing, funding; implementation procedures: design review, notice to proceed, field surveillance, changed conditions, appeals; functions of advisory board, meetings, reports, procedures, funding |
| | 30858-60 | | | Thompson | CARC | Single authority, third party contractor, independent of NEB with structure that integrates NEB's supervising function |
| | 30863-68 | | | Thompson | | Authority to represent Federal, Territorial governments, native communities; authorizing officer, third party contractor, liaison with landowners; ombudsman |
| -- | 30899-900A | | | Bayly Thompson | COPE/ITC | Integration of functions by Water Boards into Mackenzie Valley Authority |
| | 30914-26 | | | Skinnarland Thompson | CARC CARC | Special authority proposed by DINA; Skinnarland supports authority based on Gas Pipeline Regulations; difference between authorized officer's mandate and authority; Thompson does not believe NEB should manage authority |
| | 30928-70 | | | Scott Skinnarland Thompson | MVPI | Options for authority proposed in discussion paper by working group on government operations; CARC's study on history of authorities, Tennessee Valley Authority; deciding type of authority, role of ombudsman |
| 197 | 31036-45 | Oct. 13 | | Norton | MVPI | Failure of JFWAT to regulate construction of Alyeska Pipeline; lack of early mobilization of JFWAT; JFWAT's dealings with existing agencies, contractors; dangers of single monolithic agency control |
| | 31053-57 | | | Norton | | Staffing of JFWAT; envisioned functions of joint team |
| | 31109-15 | | | Rogol Veale Scott | MVPI CYI MVPI | Possibilities of single agency to monitor and conduct surveillance of pipeline construction and operation; difficulty of fitting public interest into process; operation of administrative agency |
| | 31130-38 | | | Norton | MVPI | Surveillance of stream crossings, rehabilitation and revegetation of right-of-way and ancillary facilities, oil spills, locations and maintenance of material and disposal sites; quality control; recommendation to improve in-house surveillance |
| | 31140-46 | | | Bayly Norton | COPE/ITC | Legal counsel for monitoring agency available; problems training enforcement personnel; Alyeska responsible for contractors |
| 199 | 31502-15 | Oct. 15 | | Beakhust | COPE | Two kinds of "regulation"; industry regulation and environmental regulation; Water Transport Committee; Territorial Land Use Regulations; Canada Oil and Gas Land Regulations; Land Use Advisory Committee |
| -- | 31515-45 | | | Beakhust | COPE | Delta Land Use Committee; problems with regulations; inspection reports; poor communication between operators and inspectors; role of DIAND in regulatory system; criteria for effective regulations; recommendations for administration and enforcement of regulations |
| | 31592-95 | | | Zemansky | COPE | Must be authority to prevent recurrence of Galbraith oil spill and to clean-up initial ones |
| | 31600-05 | | | Scott Zemansky Beakhust | MVPI | Problems associated with regulatory agency; proposed "bureau of consumer advocacy"; formation of citizens' surveillance group; surveillance by land owners (native people) |
| 200 | 31627-31 | Nov. 15 | | Scott | | Agency - powers, division of authority within agency, functions it should engage in, monitoring, public interest intervention |
| | 31683-88 | | | Genest | | Conflicting statements in Commission Counsel Report re: reducing size of bureaucracy; formation of an agency government involvement in impact information centre |

REGULATORY AGENCIES AND CODES (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|----------------|---------------|---|
| 200 | 31699-707 | Nov. 15 | YK | Genest | CAGPL | Input from northerners should be through a Northern Advisory Board; Commissioner should not write manual for an agency; division of monitoring responsibilities between agency - Territorial Governments, Northern Advisory Board, Geotechnical Review Board; nucleus of agency should be NEB |
| 201 | 31821-24 | Nov. 16 | | Gibbs | Foothills | Agency should be NEB, Geotechnical Review Board, sociological matters |
| | 31838-41 | | | Templeton | EPB | Single regulatory agency, staff, environmental auditor versus ombudsman |
| 202 | 31891-96 | Nov. 17 | | Bayly | COPE/ITC | DIAND should not dominate surveillance of pipeline project; Mackenzie Valley Pipeline Authority |
| | 31903-08 | | | Bayly | | Permittee must post a performance bond determined by proposed Authority |
| | 31941-42 | | | Bayly | | Manpower delivery agency |
| | 31978 | | | Bayly | | NEB actions on Manitoba Hydro Project |
| 203 | 32115-16 | Nov. 18 | | Anthony | CARC | Regulatory functions performed by single authority; creation of ombudsman |
| | 32173 | | | Veale | CYI | Funds to communities for monitoring agency |
| | 32197-99 | | | Veale | | Establishment of single monitoring agency, ombudsman; performance bonds; financing, timing; NEB not appropriate agency to monitor development |
| 204 | 32291-93 | Nov. 19 | | Ballem | GPC-D | Monolithic structure is a larger bureaucratic system, financed by industry |
| | 32309-12 | | | Parker | NWT Govt. | Recognizes need for authority but in not in best interest of NWT people as proposed |

REPORTS AND STUDIES (OTHER THAN EXHIBITS)

| | 16869-70 | | | Calef | | Population declines in various herds - Bluenose, 40-Mile herd; Skoog's thesis, 'The Biology of Caribou in Alaska' |
| | 16872 | | | Lent | | Doyle, an early explorer, visiting a village noticed a vast number of skins |
| | 16883-85 | | | Calef Lent | CARC | Nelchina herd, study by G. Boss; 40-Mile herd; paper by Skoog |
| | 16891-94 | | | Lent | | Study on calving areas of the Porcupine, Arctic, Prudhoe Bay caribou herds; Skoog's work |

REPORTS AND STUDIES (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|---------------------------|---------------|--|
| 111 | 16907-08 | Jan. 16 | IN | Calef Carter | CARC CAGPL | Data on Porcupine caribou herd by Renewable Resources, Biological Report Series |
| | 16914-23 | | | Calef Lent Bergerud | CARC | Calef, Skoog, studies of Porcupine herd calving grounds; Bergerud, Newfoundland herd; Surrendi and DeBock, wintering Porcupine herd |
| | 16930 | | | Calef Carter | | Calef to EPB, impact on Porcupine herd |
| | 16950-58 | | | Lent Calef Bergerud | | Only one biologist studying Alaskan caribou herds north of Yukon River; Calef's report to EPB re: protecting caribou; further studies of caribou to be done; more work done on grizzlies than wolves |
| | 16975-85 | | | Davies | MVPI | Problems with environmental impact statements, in appendix "A" of Davies' evidence; impact studies tell little of system sensitivities, siltation in streams as example; some social environmental studies done to justify route selection based on economic criteria; corridor, route selection study methods; on-site reconnaissance of possible corridors; selecting routes requires more detailed data, analysis |
| C-24 | 2425-26 | Aug. 23 | TL | Hushion | Foothills | Studies re: damage, contamination, restoration |
| C-25 | 2484-85 | Sept. 8 | FS | Dixon | NWT CC | Regional impact studies in Alaska, Fort Simpson re: impact multiplier |
| | 2487-89 | | | Dixon | | Work force required during peak construction periods |
| | 2565 | | | Ivans | Citizen | 1971 Financial Statement of Government of NWT |
| C-27 | 2752-53 | Sept. 10 | | Erion | Citizen | Gemini North re: CAGPL's major economic consultant; Van Ginkle |
| C-28 | 2822-23 | Sept. 10 | Wr | P. Nahanni | Citizen | Rufus Moses research re: map of Fort Wrigley trappers, routes, animals trapped, mammals hunted, permanent and temporary camps |
| C-31 | 3029-30 | Oct. 7 | FR | Menez | Citizen | Sawmill study Fort Resolution |
| C-32 | 3070-71 | Oct. 8 | | M. Beaulieu | Citizen | Pine Point Mines licence for pit de-watering re environmental study on effects of water, forestation deterioration |
| C-33 | 3123-24 | Oct. 9 | FS | Berger | | Northwest Territories Association of Municipalities study re impact of pipeline on Northern municipalities |
| C-34 | 3256 | Oct. 15 | YK | Duesterhus | Citizen | Transcript, Volume 47, page 6232 re Templeton's definition of "impact" |
| | 3258-62 | | | Duesterhus | | Department of the Environment reports re erosion in the Mackenzie Valley and on the North Slope; Report 74-29 re Yukon-Beaufort Sea Coast; Biological Report Volume 17 re braided streams and tundra, Volume 3 re Mackenzie Valley |
| | | | | Deusterhus | | Pipeline Development, 1973" re storm in the Mackenzie Mountains; "Hydrometric Data Collection in the Mackenzie River Basin" re erosion in Mackenzie Mountains |
| | 3362 | Oct. 16 | | Watson | Citizen | "The Fifth Disaster" from "National Indian Law Library Journal Announcements", January to March, 1975, Volume 3, No. 1 |
| C-35 | 3400 | Oct. 22 | LI | Wheeler | Citizen | Frobisher Bay study on outside worker abuse of Native women |
| | 3421 | | | O'Connor | Citizen | Task Force Report on Business - Problems encountered by northern business men in obtaining contracts |
| C-36 | 3487 | Jan. 28 | In | B. Allen | Citizen | Regional Planning Committee re community development |
| | 3527-28 | Jan. 29 | | Sineok | Citizen | Hobart report - cultural replacement policy by churches |
| | 3532-33 | | | Sineok | | Data shortcomings in Hobart Report |
| | 3555 | | | Binder | Citizen | Pimlott report on Beaufort Sea drilling |
| C-38 | 3628-30 | Feb. 12 | | Berger | | Brief summary of environmental studies evidence given at formal hearings |
| | 3652-55 | | | Allison | Citizen | "Pipeline Impact Anchorage" study on social impact of Alyeska Pipeline |
| | 3667-69 | Feb. 15 | | Berger | | Beaufort Study Project re: potential for, impact of an oil well blowout |

REPORTS AND STUDIES

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|--------------------|----------------|--|
| 127 | 19435-40 | Feb. 17 | IN | Monaghan | COPE | Seismic and muskrat reproductive rates, Martin's study; Slaney report on Peary caribou; Urquhart's work on response of caribou to seismic on Banks Island; Hoffman, disturbance to caribou |
| | 19455-70 | | | Trudeau | COPE | Explosives and fish, report by Seismic Seminar; "The Effects of Dynamite Explosions on Fish", by Knight; "The Effects of Underwater Explosions on Swimbladder Fish" by Christian; Falk's study re detonation speed; effects of explosives on sea mammals |
| 128 | 19520 | Feb.18 | | Trudeau | | "Guideline for the Protection of the Fish Resources of Northwest Territories During Highway Construction and Operation" by Dryden and Stein |
| | 19532 | | | Milne | COPE | "Oil, Ice and Climate in the Beaufort Sea" by Walker |
| | 19559-63 | | | Goudge Milne | MVPI | Article by Campbell and Martin, impact of oil spills on climate |
| | 19564-66 | | | Milne | COPE | Brackell's study of Arctic wildlife value to humans |
| | 19570-88 | | | Milne | | Comments of Canmar on Milne's paper |
| 129 | 19633 | Feb.19 | | Goudge | MVPI | "Impressions on the Construction of the Pointed Mountain Gas Pipeline" by Land, Dean, Brant; "Northern Yukon Fisheries Study - 1971 to 1974" Vol. 2, compiled by Steingenberger, Elsen, Bruce and Yole; "Effects of Changing the Duration of Pipeline Construction on Selected Variables" by M.P.S. Associates of Winnipeg |
| | 19656 | | | Gibbs | Foothills | "Consolidated Filing, and Third Amendment to Applications", Arctic Gas Exhibit 452, granular material in Mackenzie Delta |
| | 19673-75 | | | Speller | MVPI | Arctic Land Use research program |
| | 19697-704 | | | Inglis | MVPI | Ripley, Klohn and Leonoff study, Kind and amount of resource material available |
| | 19722-30 | | | Marshall Inglis | CAGPL | "Gravel Inventory Survey, Richards Island and Adjacent Areas" by Mollard and Associates Ltd., Exhibit 437 |
| 130 | 19740 | Mar.16 | YK | Marshall | | Hemstock, "Corridor Concept for Parallel Transportation and Communication Modes"; Avcon Aviation Consultants "Historical Activity Data, Mackenzie Valley Corridor" |
| | 19745 | | | Williams | CAGPL | NES study of cross-Delta routing, 1973 |
| | 19758-59 | | | Hollingshead | CAGPL | Field investigations along cross-Delta route |
| | 19763-67 | | | Minning | CAGPL | Corrections to tables on cross-Delta route borrow sources |
| | 19776-77 | | | Williams | | Snow and ice road construction, less water required |
| | 19783-95 | | | Williams | | Initial study of cross-Delta route as an alternate, volume filed describing cross-Delta route; "Supplement to Applications" by Hurd, uniqueness of route; site specific studies, borrow study, excavation study, ice breakup, completion of studies |
| 131 | 19842-46 | Mar.17 | | Williams Clark | CAGPL CAGPL | Test pit in Shallow Bay to determine soil conditions for ditching |
| | 19867-70 | | | Williams | | Rymes' report on ditcher machine teeth; producing privileged reports |
| | 19886 | | | Clark | | Tests to show pipe burial depth at river crossings done in lab |
| | 19901-10 | | | Williams | | Inuvik snow road study shows water requirements reduced; water availability studies, North Slope, now being done; snow fence tests at Barrow |
| | 19920-26 | | | Williams | | Snow making machinery tests; use of rologons, early movements in North, report by Muskeg Research Institute |
| | 19932-34 | | | Williams | | Snow making machine tests; wind-chill studies |
| | 19959-60 | | | Williams | | Test show gravel use unlikely for backfilling Delta river crossing trenches |
| | 19976 | | | Hollingshead | CAGPL | NES, Oct. 1975, "The Preliminary Design of Four Major Water Crossings on the Cross-Delta Pipeline Route." |
| | 19998-99 | | | Berger | | Brown and Co., feasibility study for APOA, pipelines from deep water wells, Beaufort Sea |

REPORTS AND STUDIES (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|-----------------------------|----------------|--|
| 132 | 20011-14 | Mar. 18 | YK | Williams | CAGPL | No CAGPL study done on noise emission of all terrain vehicles; studying potential water sources on Delta for fish use |
| | 20016-17 | | | Williams | | Studies done in choosing cross-Delta route |
| | 20035 | | | Clark | | Frost heave tests, cross-Delta route |
| | 20058-64 | | | Cooper | CAGPL | Kenting sounding study of bottom of Shallow Bay |
| | 20069 | | | Cooper | | Study for Alyeska, effects of exposure of pipe on river bottom |
| | 20077-78 | | | Hollingshead | | Prof. Mackay's analysis of Shallow Bay bottom soil |
| | 20086-91 | | | Goudge Hollingshead | MVPI CAGPL | "Preliminary Design of Four Major Water Crossings on the Cross-Delta Route", Sept. 74; soundings done in Aug. 75 |
| | 20128-33 | | | Williams Minning | CAGPL CAGPL | Study of Axe Point as staging area; borrow material studies by Mollard; Ripley, Klohn Leonoff; cross-Delta route |
| | 20138-40 | | | Minning | | Ripley, Klohn, Leonoff study of borrow sources, Delta; other studies |
| 133 | 20118 | Mar. 23 | | Marshall | CAGPL | Availability of report on oil spill contingency plans |
| | 20127-58 | | | Environmental Panel | CAGPL | On cross-Delta route |
| | 20188 | | | McCart | CAGPL | Little fish information available on Barry route |
| 134 | 20220-22 | Mar. 24 | | Jakimchuk | CAGPL | Slavey report, grizzly bears on Richards Island Hawley, muskrats in Delta |
| | 20236-42 | | | Webb | CAGPL | Whale calving, West Mackenzie Bay, movements into Shallow Bay |
| | 20253-55 | | | Webb | | Brodie, 1972, whale behaviour; Webb, 1975, whale reactions to disturbances |
| | 20261 | | | Webb | | CAGPL studies take into account cumulative impact on whales of various activities |
| | 20267-74 | | | Webb | | CAGPL studies of whales in Delta area do not follow late summer dispersals; Dr. Sergeant's whale studies; Doan, whales in Churchill River estuary; artificial islands, 1972 report; Brodie report |
| | 20280-320 | | | Environmental Panel | CAGPL | Reports relied on for evidence of panel - "The Vegetation of Mackenzie Delta Area", Reid and Calder, Dec. 1975; "Site Seeding Tests in the Mackenzie Delta Region; reports on birds, fish and mammals done in 1975; "Whale Studies in the Mackenzie Estuary 1972-1975" (paraphrase of titles); studies by CAGPL and Brunskill, benthic organism distribution in Delta channels; studies to be done on fish in Delta; studying lake crossed by cross-Delta route; whale studies by Slaney, Sergeant, McEwen, Manning and MacPherson |
| | 20357-60 | | | Environmental Panel | | Studies of cross-Delta route |
| | 20375-78 | | | Webb | CAGPL | Disturbance of whales, behaviour |
| | 20385-90 | | | Webb Jakimchuk | CAGPL | Disturbance of whales; alignment surveys, July 1975 re: mammal impact, cross-Delta route |
| 135 | 20425-26 | Mar. 25 | | Marshall | CAGPL | Aquatic Environments Ltd., "Water Availability Along the Arctic Gas Pipeline Route, Prudhoe Bay to Mackenzie Delta", "Aquatic Monitoring of Shallow Bay Trenching Experiment"; Sidey, Sept. 26, 1975, "Report on Pipeline Noise Studies" |
| | 20434-41 | | | Jakimchuk Gunn | CAGPL | Studies of traditionally used land cross-Delta route; Biological Report Series, vol. 30 |
| | 20469-70 | | | McCart | CAGPL | CAGPL environmental assessment, Dec. 1975, fish overwintering sites; work to be done |
| | 20476-79 | | | McCart | | Recommended studies of possible fish habitats, cross-Delta route |
| | 20501-08 | | | McCart Jakimchuk Gunn | CAGPL | Information on Niglintgak supply lateral in Slaney reports; studies to be done |

(continued)

REPORTS AND STUDIES

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|--------------------|----------------|--|
| 135 | 20556 | Mar. 25 | YK | Hemstock | CAGPL | Gemini North - other reports showing cross-Delta route preferred socio-economically |
| | 20574-82 | | | Sprague | MVPI | Water quality studies for pipeline; case study in Ontario; Water Quality Criteria 1972; pollution effects on fish |
| | 20597-601 | | | Sprague | | Impact of oil on lobster larvae; EBP report on sewage disposal; "Water Quality Criteria, 1972" |
| 136 | 20612 | Mar. 26 | | Jakimchuk | CAGPL | CAGPL Biological Report series vol. 9, fox dens, North Slope |
| | 20618-22 | | | Dabbs Marshall | CAGPL CAGPL | Biological Report Series, vol. 1; work to be done if assessments of "DEW line" and Barry routes are to be made |
| | 20630-35 | | | Sprague | MVPI | Studies of effects of oil refinery wastes on aquatic life |
| | 20635-50 | | | Sprague | | Effects on aquatic life of oil refinery wastes; study of construction of stream crossing in Ontario; "Water Quality Criteria, 1972"; Biological Report series vol. 15; Sprague's aquatic studies, toxicity of mining wastes, drilling fluids in NWT |
| | 20672 | | | Sprague | | "Water Quality Criteria, 1972" |
| | 20678 | | | Sprague | | "Water Quality Criteria, 1972" guidelines appropriate for setting up standards, regulations |
| | 20699-711 | | | Peet | MVPI | Studies done of NWT native domestic fisheries by Bond '73, Bissett '74, Withler '75, Abrahamson, Bissett, Higgins, Hunt et. al., Stein, Villeir; Barlishen and Webber, Holmes Creek fishery; McLeod, commercial fishery marketing |
| | 20709-10 | | | Peet | MVPI | Effects of construction on fisheries, Bissett; Stein; Gemini North |
| | 20721 | | | Peet | | Evidence based partly on information from Stein's fishery report |
| | 20735-45 | | | Peet | | Studies of fisheries by Slaney; Jessop and Stein; Bissett; others |
| 137 | 20791-92 | Apr. 5 | | Marshall | CAGPL | Report by Aquatic Environments Limited, "Effects of Methanol on the Fertilization Process of Chum Salmon"; progress report on effects of Methanol on the microflora of Arctic Soils by Bryant; progress report by University of Alaska, "Tundra Rehabilitation research, Prudhoe Bay and Palmer Research Centre"; report of Aquatic Environments Limited, "Water Availability along the proposed Arctic Gas Pipeline Route from Prudhoe Bay, Alaska to the Mackenzie Delta, NWT" |
| | 20820-24 | | | Davies | MVPI | Funding of environmental studies; deciding what to study |
| | 20840 | | | Goudge | MVPI | "North of 60, Mackenzie Valley Pipeline Inquiry, Summary of Proceedings, Vol. 1, Construction and Engineering", DIAND |
| | 20842-53 | | | Davies | | Northern Ontario Studies, Lively to Whitefish section of Highway 17, mining study; field and laboratory experiments, impact of siltation on fish; cost of environmental studies |
| | 20863 | | | Marshall Davies | | Biological Report series |
| 138 | 20925 | Apr. 6 | | Stephen | MVPI | James Bay Hydro Commission study on snow goose harvest by Indian hunters |
| | 20931 | | | Stephen | MVPI | Migratory Birds Research and Surveys, program of Migratory Birds Division |
| | 20943-44 | | | Norton | MVPI | "Pipeline surveillance from the inside: Fish and Wildlife Perspectives"; speech by Moolin, Alyeska Pipeline Service Company; Associated Press wire story on Moolin's speech; articles in "Anchorage Sunday Times" on pipeline welds and haul roads |
| | 20973 | | | Norton | | Speech by Moolin, senior Alyeska project engineer re oil spills; article in Alaskan magazine by Gross on driving a fuel truck |

REPORTS AND STUDIES (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|-----------------------|---------------|--|
| 138 | 20982-83 | Apr. 6 | YK | Norton Berger | | Newspaper article by Fineberg re JFWAT and stream crossings; letter from Norton to Wennekens of Alaska Department of Fish and Game; letter and notes from Calgary trip; article by Gross in Alaska Magazine |
| | 21026 | | | Mossop | MVPI | Ecological study of Old Crow Flats, census data on Waterfowl population, moose and fur bearers |
| | 21034-35 | | | Stephen | | DeBock, Surrendi research on Porcupine herd |
| 139 | 21115-43 | Apr. 7 | | Simmons Norton | MVPI | Report on formation of a Mackenzie Valley Authority; report by B. Yates "A report on the Trans-Alaska Pipeline as it relates to planning for a regulation of construction on a Mackenzie Valley gas pipeline"; "Oil exploration and the Bankslanders, a lesson in national priorities" - social impact - Bankslanders' mistrust of DIAND officials, report recommendations |
| | 21173-74 | | | Goudge | MVPI | Dr. Lewis's study - coastal erosion, sedimentation at Kay Point |
| | 21187-88 | | | Heacock | MVPI | MacPlan study - impact of oil industry on Transport Canada commitments in the north |
| | 21213-31 | | | Nicol | COPE/ITC | Official Japanese Government report "General investigation into the environmental influence of the Mizushima Oil Spill of 1974" - controversy over report - accumulated environmental impact data |
| | 21239 | | | Nicol | | Figures from Mizushima Oil Spill report - oil recovery, equipment, ships, aircraft used |
| | 21266-67 | | | Nicol | | Research in Canada re oil recovery devices |
| 140 | 21277 | Apr. 8 | | Goudge | MVPI | Author correction - Exhibit #547 report by Gee |
| | 21284-85 | | | Nicol Hollingworth | Foothills | Nicol report - role of Environmental Emergency branch of DOE in contingency planning |
| | 21289-90 | | | Nicol | | Report by DOE listing oil removal devices |
| | 21312-A | | | Usher | COPE/ITC | "The Banks Island Conflict" prepared by DIAND |
| | 21327-36 | | | Usher | | Studies conducted by CWS - impact of exploration on Banks Island wildlife nature of tests conducted by oil companies; report in "Globe and Mail" Oct. 13/1970 - attitude of DIAND re Banks Island conflict, agreement signed with oil companies; gravity surveys - late consultation of Bankslanders; letter - S. Hodgson to D. Hunt, agreements between oil companies Bankslanders broken; letter - Hunt to Yates; speech by Hunt - understanding between oil companies, Bankslanders |
| | 21346-55 | | | Usher | COPE/ITC | "Oil Exploration and the Bankslanders" by N. Simmons, T.W. Barry; "Preliminary Report on the apparent impact of seismic exploration on Arctic fox trapping on Banks Island, NWT" by P.J. Usher; letter from R.G.S. Currie to Sachs Harbour Settlement Council, memorandum - Dr. Pimlott to Sachs Council, Beaks reports re Panartic desire to schedule year-round exploration activities |
| | 21356-68 | | | Allison | COPE/ITC | Cape Parry, Balaena Bay oil spill experiments; Environmental Protection Service - proposal to conduct oil spill studies beyond landfast ice |
| | 21369-88 | | | Usher | | GPC-D reports, proposal re gas gathering and processing facilities in delta, press release concerning proposal, internal memorandums - terms of reference legitimacy of MDDGAG |
| | 21389-402 | | | Noble | COPE/ITC | Letter - J. Vick to Territorial Government - MDDGAG report - misinterpretation of statements made by Alaskan informants; documents prepared for communities "Mackenzie Delta Regional Plan and Hydrocarbon Resource Development; A scenario for the Mackenzie Delta; letter from superintendent of Inuvik local government to Director of local government at Yellowknife and reply; MDDGAG-Alaska report - failure to include full range of potential impacts |

|---------------|-------------|-------------|-----------------|---|----------------------------|---|
| 97 | 14773 | Dec.5 | YK | Hemstock | CAGPL | Old prime route near Fort Simpson crossed Liard, Mackenzie rivers |
| | 14802-03 | | | Templeton Gunn | EPB CAGPL | Crossing north slope rivers at right angles to minimize impact on willow thickets |
| 99 | 15121 | Dec. 9 | | Hayden | Foothills | Evaluation, relocation of sites |
| 100 | 15194 | Dec. 10 | | Bouckhout | Foothills | Kotanelee River, Pointed Mountain line, mitigation |
| | 15285-318 | | | Hayden | | Information on fish required from studies to make recommendations; experiments |
| | 15325-32 | | | Bouckhout Finney Hayden Whitney | Foothills Foothills | Relocation, Holmes Creek crossing, reasons; fish; birds in area |
| | 15335-38 | | | Whitney Hayden Bouckhout | | Crossings on abandoned CNT line, degradation |
| 101 | 15431-32 | Dec.11 | | Peterson | CARC | Firth, Hare Indian, Willowlake, Malcolm crossings, recommended as avoidance areas, Guideline #4 |
| 103 | 15723 | Dec.15 | | Stein | CARC | Increased levels of suspended sediment load |
| | 15756 | | | Steigenberger | CARC | Summary of Report 73-6, Freshwater fishery resources of North Yukon |
| | 15791-92 | | | Millen | CARC | Design considerations, remedial measures |
| | 15809-13 | | | Stein Millen | CARC CARC | Sites re fish spawning grounds; ice bridges and winter flow variation at crossings |
| | 15824-26 | | | Stein Marshall | CAGPL | Simpson route change re Three Day Lake - Stewart Creek system, Rabbitskin, Liard, Martin rivers |
| | 15835-38 | | | Stein Marshall | | Compared to impact of all-weather roads paralleling streams tributary to Mackenzie River |
| | 15871 | | | Stein | | Further study recommendation |
| | 15890 | | | Steigenberger | CARC | Protection of fish spawning, overwintering areas in close proximity to proposed crossing sites |
| 104 | 15925-37 | Dec.16 | | Steigenberger Walker Stein Millen | CARC | Fisheries Service activities re Rengleng, Rock, Kotanelee, LaBiche, Martin Rivers crossings, multiple crossings |
| 105 | 16006 | Dec.17 | | Marshall | | Assessment of crossing location along pipeline |
| | 16026-28 | | | Stein | | River Between Two Mountains and Willowlake River re bridge crossings; effect of highway on stream crossings |
| | 16043-52 | | | Steigenberger Stein | | Protection of fish and effects of frozen water conditions re spawning; guarantee of unchanged crossing site; watershed re impact assessment of crossing; emphasis on crossing site and area below |
| | 16059-61 | | | Marshall Millen Steigenberger Walker | | Rules and guidelines suggested re crossings; water and gravel removal |
| | 16069-70 | | | Millen | | Selection of standard designs for each stream re precautions re drainage erosion control |
| | 16078-80 | | | Stein | CARC | Boring program extended downstream from specific crossing site re critical areas |
| | 16096-100 | | | Stein | | Effects on fish re sedimentation control, migration routes, reaction to dredge and berm |
| | 16108-10 | | | Steigenberger | CARC | Effects of gravel removal re fish resource |
| 108 | 16489-90 | Jan.13 | | Adam | EPB | Ice bridges; climate; bridge strengths, loads, construction scheduling |
| 109 | 16671-72 | Jan.14 | | Templeton | EPB | Separation of pipeline and highway stream crossings at named points; relocations; recommendations |
| C-25 | 2568-69 | Sept. 8 | FS | Black | Citizen | Spur line route to Fort Simpson |
| C-26 | 2632 | Sept. 9 | | Sanguay | Citizen | Concern re: power of river |
| 114 | 17281 | Jan.22 | In | Mainland | GPC-D-I | Taglu gas field, no river crossings by gathering line: |
| | 17424-28 | | | Faulkner | GPC-D-S | Niglintgak gas field, Kumak channel crossing, little known |

RIVER - CROSSINGS (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|---------------------|---------------|--|
| 115 | 17468-75 | Jan.23 | IN | Faulkner | GPC-D-S | Niglintgak gas field, crossing Kumak channel; economic viability; alternate crossing technique |
| | 17518-22 | | | | | Kumak channel near Niglintgak gas field, problems with gathering line crossing |
| 116 | 17652 | Jan.24 | | Rempel | GPC-D-I | Temporary siltation of water body caused by crossings for permanent roads |
| 121 | 18429 | Feb.10 | | Stein | COPE/ITC | Dredging for delta crossings - impact on fish resource |
| 122 | 18558-60 | Feb.11 | | Stein | COPE/ITC | Holmes Creek - measures to protect critical fish habitats from development |
| | 18696-99 | | | Stein | | Impact of dredging, siltation on Delta fish |
| 126 | 19247-49 | Feb.16 | | Snow | COPE/ITC | Impact of siltation from construction on fish food organisms |
| 127 | 19452-53 | Feb.17 | | Trudeau | COPE | Environmental problems, flooding, erosion, siltation |
| 130 | 19740-52 | Mar.16 | YK | Williams | CAGPL | Evidence in chief re cross-Delta route crossings of West, Moose, Middle, Langley, Reindeer, East Channels, Shallow Bay etc. |
| | 19760-61 | | | Hollingshead | CAGPL | Design discharge of Peel River, outer Delta flooding taken into account for Delta crossings; twinning of line |
| | 19771 | | | Williams | | Construction plan for the cross Delta, summer installation of major river crossing |
| | 19787-88 | | | Gibbs Williams | Foothills | Delta channels to be crossed by pipeline are unique; amount of water crossing per mile |
| | 19798-838 | | | Williams Purcell | CAGPL | Construction of crossings, Tununuk Point, Langley Channel, West Channel, Shallow Bay, Middle Channel; two 36 inch lines instead of one 48; definition of major river crossing; Bear River, south of Fort Simpson, major crossings; dredging, pipe below water level, discharge of excavated material |
| 131 | 19840-72 | Mar.17 | | Engineering Panel | CAGPL | Construction of Shallow Bay crossing |
| | 19878-80 | | | Clark Williams | CAGPL | Gravel requirements, Cross-Delta route crossings |
| | 19885-97 | | | Purcell | CAGPL | Use of twin 36-inch lines under Delta channel crossings; dredging, ditch dimensions, |
| | | | | | | Delta channel crossings; original prime route versus Cross-Delta re crossings |
| | 19953-76 | | | Williams | CAGPL | Delta crossings, construction techniques, dredging, support vessels, backfilling trench, installing pipe, timing, gravel backfill requirements, distance between twin lines, water flow in channels |
| | 19981-20003 | | | Williams | | Scheduling, crews, dredging, pipe installation, backfilling of channel crossings, cross-Delta route; traffic blockages due to construction in channels, use by local people; pipe failure, twin lines |
| 132 | 20009-13 | Mar.18 | | Hollingshead | CAGPL | Bank erosion, Shallow Bay; inspection of large crossings by soundings, divers, etc. |
| | 20015-25 | | | Williams | | Selection of cross-Delta route to avoid difficult crossings; crossings on Barry route; twinning of pipes |
| | 20032-36 | | | Cooper | CAGPL | Comparing difficult crossings on various Delta routes |
| | 20042-96 | | | Engineering Panel | CAGPL | Cross-Delta route river crossings |
| | 20148-50 | | | Hollingshead | | Kumak Channel, Niglintgak supply lateral, scheduling |
| 133 | 20128-34 | Mar.23 | | Rowe | CAGPL | Cross-Delta crossings to be done in summer; minor impact on fish, Shallow Bay crossing; avoidance of difficult crossings on old prime route |
| | 20146 | | | Gunn | CAGPL | Impact on geese, Shallow Bay crossing |
| | 20152 | | | McCart | CAGPL | Impact on fish, cross-Delta route crossings |
| | 20164 | | | Rowe | | Thunder River crossing below moose wintering grounds |

|---------------|-------------|-------------|-----------------|----------------------|--------------------|--|
| 133 | 20184 | Mar.23 | YK | McCart | CAGPL | Crossings of various cross-Delta routes compared, impact on fish |
| 134 | 20208-10 | Mar.24 | | Environmental panel | CAGPL | Erosion control techniques, west side, Shallow Bay crossing |
| | 20230 | | | McCart | | Impact on fish, Delta river channels |
| | 20245-47 | | | Webb Scott | CAGPL MVPI | Impact on whales, boat and air traffic, Shallow Bay crossing |
| | 20253 | | | Webb | | Reaction of whales to noise of Shallow Bay crossing construction |
| | 20275-77 | | | Gunn | CAGPL | Construction of Shallow Bay crossing in two summers to minimize impact on wildlife |
| | 20305-07 | | | McCart | | Minimizing impact on fish overwintering sites, studies to be done |
| | 20311-12 | | | McCart | | Possible realignment of cross-Delta route to minimize impact on fish |
| | 20320-23 | | | Webb | | Construction, Shallow Bay, conflicting with whale presence |
| | 20335 | | | Gunn | | Waterfowl moulting near Delta crossings |
| | 20367 | | | Gunn | | Recommendation to minimize impact of Shallow Bay crossing on waterfowl |
| 135 | 20428-29 | Mar.25 | | Webb | | Ditch spoil material, Shallow Bay may act as barrier to whales |
| | 20454-89 | | | Dabbs McCart | CAGPL | Shallow Bay, revegetating banks, construction pads; crossings, cross-Delta route, measures to reduce impact on fish; Barry route crossings |
| | 20501-02 | | | McCart | | Kumak Channel, Niglintgak supply lateral, impact on fish migration, overwintering |
| | 20509-10 | | | Gunn | CAGPL | Kumak channel, Niglintgak supply disturbance |
| | 20519-24 | | | Banfield Hemstock | CAGPL CAGPL | Thunder River site change; band stability, Shallow Bay, Reindeer and Langley channels |
| 136 | 20618-20 | Mar.26 | | Dabbs Hemstock | CAGPL | Crossing of North Slope river fans difficulty with "DEW line route" |
| | 20652 | | | Sprague | MVPI | Siltation due to construction |
| | 20655-56 | | | Sprague | | Use of biological standard to guard against siltation |
| | 20679 | | | Sprague | | Different siltation standards may be required for different river types crossed |
| | 20711 | | | Peet | MVPI | Shouldn't be near commercial, domestic, sports fisheries |
| 161 | 24788-89 | July 12 | | Williams | CAGPL | Typical crew size; variations due to size of crossing to be constructed |
| 162 | 24955-66 | July 13 | | Carlson | | Operations and maintenance techniques, twin crossings |
| | 25059-61 | | | Trusty | | Camp at Great Bear River crossing near Fort Norman; camp near Fort Simpson, Mackenzie River crossing |
| C-76 | 8364-65 | Aug 25 | DET | A. Liske | Citizen | Fear of pipe cracking and shifting in winter |
| | 8368-70 | | | Steeves Burrell | CAGPL Foothills | prost heave concern of NFB; try to avoid when possible, safety feature of pipe |
| 191 | 29764-65 | Sept.24 | YK | Hagglund | MVPI | Kakisa bridge between Enterprise and Fort Simpson; not all river crossings have bridges; ferry service at Fort Simpson; ice bridges |
| 194 | 30375-76 | Oct. 6 | | Hemstock | CAGPL | Scheduling of oil, gas pipeline crossing to avoid synergistic impacts |
| | 30428-29 | | | Lipsett | MVPI | Distance between oil, gas pipeline crossings on Great Bear River - several miles |
| 197 | 31063-65 | Oct. 13 | | Norton | MVPI | Monitoring problems of low water crossings encountered by JFWAT |
| | 31123-24 | | | Norton | | Problems of crossing streams in winter in Alaska |
| 199 | 31582 | Oct. 15 | | Zemansky | COPE | Alyeska stream crossings, siltation indicates violation of water quality standards, mitigative measures not used |
| | 31586-87 | | | Zemansky | | Joint State Federal Fish and Wildlife Advisory Team report re: construction of Tolovona River crossing |

RIVER CROSSINGS (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|----------------|---------------|--|
| 201 | 31778-79 | Nov. 16 | YK | Marshall | CAGPL | Application of standard project flood design unduly conservative |
| 202 | 32054-55 | Nov. 17 | | Anthony | CARC | Economic viability of overhead crossing should be re-examined |

RIVERS - CHARACTERISTICS

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|----------------------|-------------|-----------------|------------------------|-------------------|---|
| XVII | 1956-58 | Mar.13 | YK | Bayly Mollard | COPE/ITC CAGPL | Characteristics, consideration in route selection, east vs. west side of Mackenzie |
| XIX | 2181-83 | Mar.17 | | Clark | CAGPL | Icings, ice jams, river bed scour |
| | 2220 | | | Clark | | Studies of river regimes, ice break up, Point Separation |
| XIX A | 2252 | Mar.17 | | Clark | | Collection of data |
| | 2255-58 | | | Berger | | Ice jam data; on-going studies, effect on design |
| | 2258-59 | | | Hardy | CAGPL | Need for data; ice jamming |
| XX | 2394-95 2398-2400 | Mar.18 | | Clark Cooper | CAGPL | Lateral migration; sag bends; bank reinforcement; ice jams & river scour; thermal niching; channelization in braided streams |
| XXI | 2428-35 | Mar.19 | | Hollingshead | CAGPL | Slide presentation: meanders, lateral migration; channel depth; meanders - Big Smith Creek, Martin River; down-valley shifting of meander patterns; lateral migration - use of aerial photography |
| | 2451-60 | | | Cooper | | Slide presentation: scour resulting from ice jams; ice jam studies, Mackenzie River, formation, profiles, etc.; pressures acting on the ice; 1974 ice jam at the Ramparts |
| | 2463-67 | | | Cooper | | Slide presentation: lateral migration, location of sag bends; down stream meander migration, use of aerial photographs; use of data re: locating river crossings; floodplain terminology |
| | 2504-07 | | | Cooper | | Ice jams, resultant scour, importance in route location; distance between pipes at twinned crossings |
| XXII | 2632-34 | Mar.20 | | Cooper | | Normal river ice process - ice jam; flow under ice cover |
| XXIV | 2828-35 | Apr.7 | | Hardy Williams | CAGPL | Blasting of ice jams, rock - North Slope; effect on caribou |
| XXV | 2964-74 | Apr.8 | | Cooper | | Scour due to ice jams |
| | 2991-98 3029-34 | | | Cooper Hollingshead | | Gouging by ice cakes, danger to pipeline |
| | 3035-42 | | | Cooper | | Meander, shifting channels - prediction of rate |
| | 3049-54 3056-60 | | | Hollingshead | | Avulsion, braided streams - changes in channel direction |
| XXVI | 3103-13 | Apr.9 | | Cooper | CAGPL | Ice jams - blasting |
| XXVIII | 3437-47 | Apr.10 | | Clark | CAGPL | Sec. 8A, P. 6 Application - beaded rivers |
| XXIX | 3567 | Apr.14 | | Scott | MVPI | Melting of ground ice, ice cakes, gouging |
| 42 | 5424-25 | May 21 | | Fielder | CAGPL | Braided portions; permafrost below bed |
| 51 | 6802-03 | Aug. 11 | WH | Hemstock | CAGPL | Northern River dry bottom |
| | | | | | | U.S.S.R., few ice jams |
| | | | | | | Selection and rejection of routes and alternative corridors; aspects of repair, ice-covered waters; environmental considerations |
| 55 | 7602-05 | Aug. 15 | | Hughes | CARC | Glacial silt; location; gravel terraces; glacial lake sediments; clay sill |
| 61A | 8720 | Sept. 15 | YK | Walker | Foothills | Potential for river bed degradation; bed scour; course stability; icing effects; flooding; surface and sub-surface drainage |
| 64 | 9300-11 | Sept. 18 | | Spafford | Foothills | Regimes described at each of the pipeline crossings |
| 65 | 9461-88 | Sept. 19 | | Spafford | | Soundings; routing considerations |
| | 9636 | | | Jarvis | Foothills | Ice wedging, stream blockage |
| 70 | 10567-76 | Sept.26 | | Lewis | MVPI | Slope stability, flood plain, water flow channel characteristics of the Firth, Blow and Babbage Rivers |
| 72 | 10769-72 | Oct. 15 | | Lewis | | Flood plains; braided gravel river; active channels; Blow River re: feet of fill Malcolm River re: river crossing, unfrozen depths; Yukon North slope rivers; Firth River; level of precipitation; frozen depths; scour and bank erosion; channel stability |

| | 9436-37 | | | Claridge | | Routing around Ebbutt Hills; frost heave |
| | | | | Claridge | | Slope studies along 10 mile corridor east of the Mackenzie |

ROUTE - SELECTION OF LOCATION, LOCATION (continued)

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|---------------------------------|------------------------|--|
| 65 | 9454-60 | Sept. 19 | YK | Claridge | Foothills | Avoidance of slope disruption by route alteration |
| | 9503-04 | | | Mirosh Panel 9 | Foothills | Refinement by Foothills of CAGPL route |
| | 9523-27 | | | Hwang | Foothills | Detailed terrain information necessary to determine final point of chilling in South |
| | 9610 | | | Bauer | Foothills | Routing not finalized |
| 68 | 10131 | Sept. 24 | | Dau | CAGPL | Route selected for investigation by contractors |
| 75 | 11053 | Oct. 20 | | Weeden | CARC | Interior, Coastal Mainline Routes; establishment of corridors; Arctic National Wildlife Range; exploration and reserves |
| 76 | 11144-179 | Oct. 21 | | Weeden Parker | CARC | Fairbanks alternative; Alaskan policies, research |
| | 11179-298 | | | Weeden Parker | | Alyeska; routing, availability of gravel; access |
| 77 | 11354-442 | Oct. 22 | | Rutter | CARC | Pipeline routing; Mackenzie Valley; between Mackenzie River and the Franklin Mountains; Mackenzie River and east of the Franklin Mountains; terrain conditions; terrain hazards; physiography; surface and groundwater; river crossings and characteristics; west of the Franklins; better terrain east of the Franklins; borrow sources |
| | 11452-88 | | | Roed | | Edge of the shield route; terrain analysis, mapping, studies; fluted moraine ridges; location to communities re: gas feeder lines; waterbody and river crossings; slope stability terrain advantages; oil and gas reserves |
| 78 | 11496-598 | Oct. 23 | | Roed | CARC | Other pipelines; study; terrain analysis and advantages; location of reserves |
| | 11617-74 | | | Minning | CAGPL | Research, studies; terrain analysis, pipeline design, gas source and needs; re: reading of phase 2 evidence |
| 80 | 11820-43 | Nov. 4 | | Clark Harlan | CAGPL CAGPL | Avoidance of sensitive terrain; economic factors related to thaw settlement, frost heave, placement of pipe on piles |
| | 11828-39 | | | Williams | CAGPL | CAGPL studies of route refinement; changes contemplated; recommendation from CAGPL consultants |
| | 11850-69 | | | Hemstock | CAGPL | Avoidance of sensitive terrain; method of route selection; wilderness, IBP sites |
| | 11886-89 | | | Williams | | Changes and relocations in route under consideration |
| 81 | 11978-92 | Nov. 5 | | Clark Harlan | CAGPL | Icings along route |
| | 12079-83 | | | Minning Williams | | Location of borrow sources; possible amendments |
| 82 | 12173-75 | Nov. 6 | | Williams | | Possible changes in Yukon routing; change more feasible along coastal route; cost of revegetation along coastal and interior routes |
| | 12199-12200 | | | Harlan | | Factor of elevation in preference of coastal over interior route |
| | 12259 | | | Hemstock | | Location of route a priority in terms of impact |
| 83 | 12419-39 | Nov. 7 | | Environmental Panel Scott | CAGPL MVPI | Environmental input after route selection; borrow site location; sensitive pit locations; Rat River pit sensitivities |
| 86 | 12821-22 | Nov. 13 | | Drew | Foothills | Community laterals, Pine Point, Rae-Edzo |
| | 12882-83 | | | Taylor | Foothills | Aesthetic considerations |
| | 12899 | | | Drew | | Community laterals |
| 87 | 13065-74 | Nov. 14 | | Bouckhout Davison Drew | Foothills Foothills | Alternate route, Fort Good Hope; borrow sources |
| | 13088-90 | | | Bouckhout Reeves | Foothills | Archaeological considerations; rerouting |
| | 13099-100 | | | Bayly Taylor | COPE/ITC | Avoiding scenic areas, minimizing damage |
| | | | | | | |

ROUTE - SELECTION OF LOCATION, LOCATION

| <u>Volume</u> | <u>Page</u> | <u>Date</u> | <u>Location</u> | <u>Speaker</u> | <u>Agency</u> | <u>Subject Matter</u> |
|---------------|-------------|-------------|-----------------|---------------------------------|------------------------|---|
| 88 | 13226-34 | Nov. 17 | YK | Bouckhout Drew | Foothills Foothills | Selection using terrain sensitivity ratings |
| | 13292-13305 | | | Bouckhout Taylor | COPE/ITC | Aesthetics used for selection; local views |
| 89 | 13427-30 | Nov. 18 | | Gunn | CAGPL | To minimize bird disturbance, recommendations |
| | 13461-62 | | | Jakimchuk | CAGPL | East versus west of Delta; Travaillant Lake change; Fort Simpson change |
| | 13478-79 | | | Jakimchuk | | Impact on caribou |
| | 13487-92 | | | Jakimchuk | | Mammal impact, coastal and interior routes, advantages, disadvantages; interference, caribou migration |
| 90 | 13577-85 | Nov. 19 | | Dabbs | CAGPL | Vegetation information input; clearing of right-of-way, effects on snow depth |
| | 13645-47 | | | Hemstock | CAGPL | Corridor shaped by history, past developments |
| | 13731-32 | | | Hemstock | | Cross-Delta route will be prime route |
| 91 | 13778-96 | Nov. 20 | | McCart | CAGPL | Route fish impact survey, route selection, site specific recommendations |
| | 13847-92 | | | Dau | CAGPL | Mileage, cost comparisons of alternative routes |
| 92 | 13977-78 | Nov. 21 | | McCart | | Choice between Interior and Coastal alternates if permanent project road eventually built; fish concerns |
| 93 | 14163-68 | Dec. 1 | | Gunn | CAGPL | Advantages and disadvantages re: route selection in terms of biological species; discussion among consultants |
| 94 | 14221-44 | Dec. 2 | | Gunn Hemstock | CAGPL | Compressor station - mobility, distance to bird nesting areas |
| 95 | 14385-451 | Dec. 3 | | Environmental Panel | CAGPL | Research, environmental assessment approaches; route selection; terrain typing; EPB matrix; access roads, facilities; alternative routes |
| 97 | 14772-78 | Dec. 5 | | Gunn Hemstock | | Selection of Cross-delta route, Fort Simpson route change, decision making; EPB's environmental impact matrix as aid |
| 99 | 15086-104 | Dec. 9 | | Hemstock | | Aesthetics, archaeological sites, influence on location |
| | 15107-85 | | | Environmental panel | Foothills | To minimize environmental impact |
| 100 | 15203-27 | Dec. 10 | | Environmental panel | | Biologists had no say in original selection; field studies on route |
| | 15271-74 | | | Bouckhout | Foothills | Environmental analysis of route, impact assessment; route, differences to CAGPL's |
| 101 | 15420-35 | Dec. 11 | | Peterson | CARC | Guidelines cover corridors not routes; geographic coverage of E-S P reports reflect routes proposed by potential applicants |
| | 15507-16 | | | Peterson Scott Berger | MVPI | Corridors, enclousion of Mackenzie Delta in guideline corridors |
| 102 | 15549 | Dec. 12 | | Peterson | | West side of Mackenzie considered as possible route by Environment-Social Committee |
| 103 | 15747-54 | Dec. 15 | | Walker | CARC | Analysis of Coastal, Interior Routes, Fort Yukon, Fairbanks Corridors |
| 105 | 16060-64 | Dec. 17 | | Marshall | CAGPL | Less environmental impact re: deviation of guidelines in particular circumstances, specific recommendations re: pipe burial, crossing length and protection against erosion |
| 107 | 16286-315 | Jan. 12 | | Templeton McT-Cowan Bliss | EPB EPB EPB | EPB preference of route; Prime, Interior routes differ little re: Dall Sheep; Grizzly Bear; Prime Route detrimental to caribou; little impact to furbearers; fish - favours the Prime Route; transportation of equipment etc.; route comparisons by Bliss - in favour of Interior |
| 108 | 16491 | Jan. 13 | | Adam | EPB | Terrain conditions considered during route selection process |
| 109 | 16665-67 | Jan. 14 | | Templeton Scott Berger | | Calef route; impact of development on the North Slope |

ROUTE - SELECTION OF LOCATION, LOCATION (continued)

| Volume | Page | Date | Location | Speaker | Agency | Subject Matter |
|--------|-------------|---------|----------|-----------------------------|-------------------------------|---|
| 110 | 16846-57 | Jan. 15 | YK | Calef | CARC | Route preference; Calef's alternative route on the interior - avoidance of Old Crow Flats, Arctic National Wildlife Range, Yukon coastal plain, use of the Dempster and seismic lines |
| 111 | 16979-17000 | Jan. 16 | | Davies | MVPI | Route selection methods |
| C-26 | 2713 | Sept. 9 | FS | A. Nahanni | Citizen | Questions re: right-of-way, location of pipe, how close to his cabin |
| C-30 | 2934-35 | Oct. 6 | PP | Mirosh | Foothills | Proposed route, Pine Point lateral |
| C-32 | 3072-73 | Oct. 8 | FR | Boggins | Citizen | Opposition to pipeline route |
| C-33 | 3132-34 | Oct. 9 | FS | Barford Mirosh Carter | Citizen Foothills CAGPL | Location of pipeline, route, distance from Wrigley, Fort Norman, Arctic Red River and Fort McPherson |
| C-38 | 3676 | Feb. 15 | In. | Koe | Citizen | Use of tankers instead of cross-Delta route |
| 112 | 17112-13 | Jan. 20 | | Bliss | GPC-D | Exclusion of pipeline activities in Caribou Hills IBP site |
| 122 | 18581-87 | Feb. 11 | | Barry | COPE/ITC | Definition of Barry cross-Delta route proposal |
| 125 | 19032-33 | Feb. 14 | | Shearer | COPE/ITC | Placement of flowlines in offshore channels |
| 126 | 19293 | Feb. 16 | | Snow | COPE/ITC | Pipeline routing based on river discharge, sediment carrying capacity |
| 130 | 19740-51 | Mar. 16 | YK | Williams | CAGPL | Evidence in chief selection of cross-Delta route |
| | 19782-83 | | | Williams | | Northern Engineering Service, first look at cross-Delta route |
| | 19792 | | | Williams | | Cross-Delta route selected without reports of studies |
| 132 | 20015-37 | Mar. 18 | | Williams | | Cross-Delta route versus Barry route |
| | 20046 | | | Williams | | Reasons why route crosses fan of Malcolm River |
| 133 | 20126-A-27 | Mar. 23 | | Rowe | CAGPL | Cross-Delta route, studies |
| | 20136 | | | Rowe | | Parsons Lake lateral route similar to Foothills route |
| | 20175-90 | | | Environmental panel | CAGPL | Comparison of impacts of cross-Delta, old prime, interior and Barry routes on Delta |
| 134 | 20306-12 | Mar. 24 | | McCart | CAGPL | Possible realignments of cross-Delta route to avoid important fish spawning, overwintering areas |
| | 20332-33 | | | Gunn | CAGPL | Circum-Delta route preferable to cross-Delta for birds |
| | 20383-84 | | | Webb | CAGPL | Delta route preferences to minimize whale impact |
| | 20397-98 | | | Jakimchuk | CAGPL | Comparison of various routes across Delta, impact on mammals |
| 135 | 20429-59 | Mar. 25 | | Environmental panel | CAGPL | Cross-Delta route |
| | 20471-86 | | | McCart | | Realignment, cross-Delta route to reduce impact on fish; comparison with Barry route |
| | 20499-505 | | | McCart Jakimchuk | | Barry route still flexible; avoidance of grizzly denning areas, cross-Delta route |
| | 20524-25 | | | Hemstock | CAGPL | Avoiding IBP sites |
| | 20560-62 | | | Hemstock | | Use of DEW line stations, North Slope, CAGPL consideration |
| 136 | 20608-26 | Mar. 26 | | Environmental panel | | Alternative routes, cross-Delta and Prudhoe Bay Supply Line |
| | 20711 | | | Peet | MVPI | Should avoid commercial domestic, sports fisheries |
| 137 | 20794 | Apr. 5 | | Davies | MVPI | Route alignment, minimal environmental impact |
| | 20871-72 | | | Davies | | Process to arrive at environmentally acceptable route |
| 138 | 21015-18 | Apr. 6 | | Berger Mossop | MVPI | Buried gas pipeline along coastal route, not interior route |
| 151 | 23069-70 | May 5 | | Irving | CYI | Possible re-routing, areas of archaeological importance |
| | 23166-71 | | | Smith | CYI | Opposition to a route in vicinity of Old Crow |
| | 23178-83 | | | Smith | | Suggestion that native people should choose the route |
